

Meeting Type: Team-Only

Date: 2026-08-26

Start-End Time: 8:30pm

Location/Mode: Zoom

Attendees: Meghana, Sofia, Sonali

1) Accomplished Since Last Meeting

- Reviewed last semester's code and found formula inconsistencies.

2) Accomplished During This Meeting

- Listed the corrections needed in the formulas, metrics and train/test intervals.
- Discussed an adapter interface for the Google/Azure datasets and a risk-aware hybrid policy.
- Agreed to focus on the regression models for the prototype.

3) Issues / Blockers

- The datasets have different schemas, and the Google dataset is outdated.

4) Action Items

- Action: Fix the formulas and update the status document | Owner: Meghana | Due: 08-27
- Action: Email the OpenStack dataset authors | Owner: Meghana
- Action: Submit the project status update | Owner: Sonali | Due: 08-28

5) Plans / Goals for Next Meeting

- Finalize the project status slides on Thursday.

Meeting Type: Team-Only

Date: 2026-08-27

Start-End Time: 8:30pm

Location/Mode: Zoom

Attendees: Meghana, Sofia, Sonali

1) Accomplished Since Last Meeting

- Meghana shared the 295B document and the draft project status slides.

2) Accomplished During This Meeting

- Reviewed the project status slides and agreed to put the details in the speaker notes.
- Started estimating completion percentages for the report chapters and the prototype.

3) Issues / Blockers

- The advisor (Ghuzoon) hasn't replied to the team's emails.

4) Action Items

- Action: Add the content and completion estimates to the slides | Owner: Meghana | Due: 08-28
- Action: Review the 295B document | Owner: Sofia | Due: 08-28
- Action: Follow up with the advisor, and escalate to the course instructor if there's no reply by next week | Owner: Team

5) Plans / Goals for Next Meeting

- Submit the project status update and continue the slide edits.

I still need the start and end times for both meetings. Send them whenever you have them, and send the next summary too.

Meeting Type: Team-Only

Date: 2026-09-01

Location/Mode: Zoom

Attendees: Meghana, Sofia, Sonali

1) Accomplished Since Last Meeting

- Submitted the project status update.
- The project was reassigned to a new advisor, Dan Harkey.

2) Accomplished During This Meeting

- Planned how to introduce the project to the new advisor, starting with the overview before the technical details.
- Agreed to split the code corrections by workbook tab, with each person working locally and opening pull requests.

3) Issues / Blockers

- The new advisor prefers research projects, so the project direction may need to change.

4) Action Items

- Action: Email the advisor with the workbook link and status PPT, and ask for his availability | Owner: Meghana
- Action: Send the final workbook link to Meghana | Owner: Sofia
- Action: Prepare 2–4 project ideas to present to the advisor | Owner: Team

5) Plans / Goals for Next Meeting

- Meet with the new advisor and get his feedback on the project direction.

Meeting Type: Team-Only

Date: 2026-09-08

Location/Mode: Zoom

Attendees: Meghana, Sofia, Sonali, Shivani

1) Accomplished Since Last Meeting

- Contacted the new advisor, Dan Harkey, and scheduled an in-person meeting.

2) Accomplished During This Meeting

- Planned a shorter presentation for the advisor meeting, cutting it from 30 slides to 1–3 per notebook plus an architecture diagram.
- Agreed to add 2–3 slides on next steps for the semester.

3) Issues / Blockers

- The original presentation is long and hard to find, since it's split between Discord and email.

4) Action Items

- Action: Create the new short PPT and share the link | Owner: Meghana | Due: []
- Action: Find the original PPT in Discord or email | Owner: Sofia, Sonali | Due: []
- Action: Review and finalize the PPT | Owner: Team | Due: 09-11

5) Plans / Goals for Next Meeting

- Present the project to Dan Harkey at the in-person meeting on Tuesday.

Meeting Type: Team-Only

Date: 2026-09-24

Start-End Time: [fill in]

Location/Mode: Zoom

Attendees: Meghana, Sofia

1) Accomplished Since Last Meeting

- Meghana wrote a one-week task plan (three notebooks and two Python modules) in the shared document.

2) Accomplished During This Meeting

- Walked through the task plan and split the work: evaluation and metrics, data splitting (70/20/10), and the recurrence profile.
- Agreed to build the pipeline on the Google subset first, then extend it to the other workloads.

3) Issues / Blockers

- The updated data has more records and new columns (execution/episode), so the job profile logic needs changes.

4) Action Items

- Action: Email about the OpenStack workload data | Owner: Meghana | Due: []
- Action: Build the recurrence profile and recommendation pipeline | Owner: Sofia | Due: 10-01
- Action: Build the evaluator and metrics modules | Owner: Meghana, Sofia | Due: 10-01

5) Plans / Goals for Next Meeting

- Review the pipeline progress and start on the adapter interface.
